

Vice President Elayne Mackey

Pre Board of Directors Report 4/2017

Since the last reporting period, I have found the position of Vice President to be very fulfilling.

I have been keeping in contact with our Regional Directors and Committees and assisting them when needed.

Part of my duties per the AVVA Policy and Procedure is that the VP monitors all committees and taskforces. I find this interesting as we have a lot of business taking place and I am able to keep up with all the proposed changes by the committees. Discussion takes place and I see that our committees take their position seriously and work for the better of AVVA.

I thank all the committees for their work and hope to see them continue to go forward.

The AVVA President, Sharon Hobbs, has called on me to help with tasks and I appreciate her confidence in me.

I was fortunate to be able to help Region 1 obtain 3 elected Chapter Representatives. All 3 are involved in every aspect as a Chapter Representative and enjoying their positions. I think we will see more positive results in Region 1.

After AVVA partnered with the Military Veteran Caregivers Network (MVCN), I joined the group and have future plans to be a part of their training. The information on their web site is valuable and is needed by all that have either been a caregiver, is a caregiver or will be a caregiver someday. It all applies to everyday living.

April, 2017 is the last reporting period before the 2017 Convention. AVVA has a lot of tasks to complete before this convention. I know they will be accomplished with no problem as always.
