

## FINANCE COMMITTEE - APRIL 2019

Seems the older we get, the faster the days go by. Another year has come and rapidly flying past. The Finance committee has put together the budget for fiscal year 2019-2020, which is ready to submit to the Board at April's BOD meeting.

This year has been an exciting year due to the fact that AVVA National, has completed the process to changing to a 501c3 Non-profit organization. This should bring about some positive changes in the near future. We are still searching for solutions to reducing the cost or finding other means of revenue to offset the cost of producing and shipping of the Paper Safe, this change opens up a number of possibilities.

Everyone has done really well, carrying out their responsibilities while keeping within their budgets.
