

# Associates of Vietnam Veterans of America, Inc.

## Committee Chair Quarterly Report

---

### NATIONAL WEBSITE COMMITTEE

The National Website Committee oversees and maintains the Associates of Vietnam Veterans of America National Website.

**Since the last report** I have been updating information as I receive it.. There have been very few things submitted since last October. I have started on a re-design of the national website, but I need some more photos and other materials in order to get it going. I am hoping to refresh the overall look, and make things even easier to find. It will probably be close to the end of the year before I can get it finalized enough to send to the board for their opinions and approval. Stay tuned!

The AVVA Face book page is still being used by our members. It is a good place for members to share their events and information with each other.

The website contains most of the information and/or forms that you will need for your elections this year. I hope everyone who possible can, holds their chapter and state elections.

#### GOALS FOR THE NEAR FUTURE:

We very much want to try to get more input from members around the country as to events and information relevant to individual states and chapters, as much as is possible to obtain. I would love to have the chapters and states that have websites or Face book pages submit their web addresses to us, so that we can have links to all of them, to provide to the members around the country.

Respectfully submitted:

Joanna Henshaw  
AVVA Website Committee Chair
