

APRIL 2017

WEBSITE COMMITTEE REPORT

Since October, there have been several changes and additions to the AVVA website. The minutes page has been updated to 2017, and there have been a couple of policy changes posted.

Most notably, there has been a significant amount of information posted regarding the upcoming national elections, which will be held during the AVVA 2017 National Convention. There is a general information page, that should tell you pretty much everything you need to know, and there is a page listed all of the candidates for national offices, along with their biographies.

Also added is an information page regarding awards, including the new Cathy Kiester Spirit of Excellence award. Links are provided for all of this.

As of this writing, the hit count of the website is over 127,750 views. It is good to see people using the site.

We are looking for someone who has some experience maintaining websites, who might like to be a committee member. If you would like to discuss it, contact me at avva2003@cox.net.
