

Together Always

***PTSD '2' Elayne Mackey, Nina Schloffel***

AVVA is proud to announce that our Secondary PTSD – PTSD '2' program is active and doing quite well.

A lot of time was spent developing the program. ***Why did it take so long?*** This is a serious subject matter; one so close to the heart that is not to be taken lightly.

AVVA takes all of their programs serious which leads to research, hard work and dedication.

The dates of 9/22 – 9/23 2016 found the first facilitator training session held via the online Go to Meeting.

A total of 3½ hours was presented with information beneficial to our soon to be facilitators. This proved to be successful and we are ready to move on to the next step.

This program will not just be a few hours, there will be ongoing training, resources and possibly guest speakers. This is going to be a very strong functioning program. What we have to learn covers such a broad area. There is a wealth of information.

Currently we have prospective facilitators from Region 2, 3, 4, 7 and 9.

As times moves forward we will be accepting additional facilitators. If you would like more information please contact:
