

Region IV Quarterly Report

Thank You to everyone from Region IV that made it to the 2017 Conferences and supported me at the elections.

One of the goals I have (and always have) is to increase membership in my Region. At our GSC meeting this month (October 2017) I will be talking to the AVVA members about ideas they have to increase members. I will pass the information out to the rest of the region and also get their ideas.

Another goal is to increase VISTA hours in my region.

While at the National conferences in August 2017 I met several Members from Alabama that are ready to move forward in the organization so I will be contacting these members and walking them through the chapter and state elections for 2018. I will also be working with members in Mississippi to get there chapter and state elections done. I would like to see state representatives in place for all states in this Region by the end of this term. These are my main goals for this term.

I look forward to working and serving everyone in Region IV over the next 2 years and sending them new and exciting ideas and news of whats happening in the organization.

Jeri Wallis
Region IV Director
