

Region II Report

Nancy Rekowski, Region II Director

June, 2019

After serving three consecutive terms, this will be my last Region II report. But I feel confident that I leave my region in good hands with Bobbie Morris, the new Region II Director. Bobbie has a great deal of experience and knowledge after serving as the Deputy Region Director for the past six years.

Convention years are always the busiest and this year was no exception. Immediately after the Strategic Plan was finished, my committees began working on the updates and redesigned of the Paper Safe. The updates will be sent to the committee for review prior to the consent for printing by the Board of Directors. Collectively I estimate that the committee members invested a minimum of 600 hours.

Another huge project was the research, development, graphic design and printing of the AVVA 20th Anniversary Book to be given to those participating in the convention. I am very proud of my committee as putting together the book was a monumental task. Collectively, the committee invested over a thousand hours of time. I am fortunate to have dedicated people serving on my committees.

I also serve as the Bylaws Chair for the 2019 AVVA Convention. The committee prepared 13 to be presented for consideration by the membership.

Thank you to everyone that has supported me throughout my tenure. You will be missed.
