

# *Website Committee Report*

---

## **October 2021 – END OF TERM**

During this term our website was re-designed and updated, and there has been information added on a regular basis to help our members and others understand how AVVA works, and what current information is available.

We also added a statistical tracker that gives us information about the website use, nothing personal or about individuals, but information that helps us know which pages are visited, how many visits are new, how many are page to page hits, and other information that helps us to know how we can make things better.

We added pages that will give you membership information, chapter locator information, and other data that was not there before. We have a membership “Q & A” page as well, to answer the most frequent questions.

We have had some issues with our email accounts that use ‘@avva.org’ and the short story is that we are not receiving emails that include \_\_@avva.org. We are currently working on that issue, so please be patient. Most officials are using their own emails so that members can contact them.

Keep in mind that there is an online form on the “News” page that will allow you to sign up for our “Flash Notice” email list, which gives you information sent out by national.

We also still have our face book page, which is well used. It is a good place for our members to interact with each other. I want to thank Tim Von Bon, the Region 9 Director and a committee member, for keeping track of our Face Book page and our twitter account for us.

Please use this website. It is full of information that will help you to get things done and keep your chapters or states going, as well as helping VVA members in your chapters to understand how we function, and how it is different from their processes.

I would like to thank my committee and to acknowledge the good work. The members are released from their duties as of November 5<sup>th</sup>, and have been much appreciated.

Respectfully submitted,

*Joanna Henshaw*

AVVA National Website Committee Chair
