Legislative Alert

Vietnam Veterans of America
December 18, 2020

Please ask the President to sign and NOT veto the *FY21 National Defense Authorization Act*

Congress passed the *FY21 National Defense Authorization Act* by an overwhelming and veto-proof margin.

Vietnam Veterans of America asked President Trump to sign the NDAA, which will add four Agent Orange-related diseases--bladder cancer, hypothyroidism, Parkinsonism, and hypertension--to the Department of Veterans Affairs list of conditions linked to herbicide exposure in Vietnam

This legislation will correct a long-lingering injustice, allowing our afflicted Vietnam veterans to receive the care and benefits they have earned by their service in our long-ago, unpopular war.

Please call the White House NOW

VVA encourage all veterans to use the enclosed script and call the White House NOW. Let the President know how important this legislation is to our Vietnam veterans. With President Trump's signature on this bill, he will have done the right thing for our veterans, and his legacy will prevail. Contact for the White House office at: 202-456-1111.

Vietnam Veterans of America (VVA) is the nation's only congressionally chartered veterans service organization dedicated to the needs of Vietnam-era veterans and their families. VVA's commitment to all veterans is exemplified in its founding principle, "Never again will one generation of veterans abandon another."
