

OHIO AVVA PRODUCES AND DONATES MASKS

Incarcerated chapters in Ohio are in mass production of face masks, both for use in the Correctional centers, and to send out to needy civilian areas. We commend them for their service to America and are proud to announce their participation.

Chapter 559, Grafton Correctional Institution: Over 4000 masks produced, enough for inmate population and sending to civilian population.

Chapter 676, Lancaster (Southeastern) Correctional Institute: Over 2500 masks produced again, enough for inmates and civilian population

Buckeye State Council is proud of its 3 Incarcerated chapters. We haven't received a report from Allen Correctional Institute, but we would not be surprised if they weren't in mask production too.
